

NEW BOOKS IN PHYSICS – JANUARY 2007

Title	Author/ Editor	Year published	Call Number	Location
Electro-optical imaging system performance	G.C. Holst	2006	621.391.63 HOL	Physical Sciences and Engineering book collection, Level 2, Central Library
Fatigue of materials	S. Suresh	1998	539.388 SUR	Physical Sciences and Engineering book collection, Level 2, Central Library
Interatomic forces in condensed matter	M. Finnis	2003	538.9 FIN	Physical Sciences and Engineering book collection, Level 2, Central Library
Laser ablation and its applications	C.R. Phipps (ed.)	2002	621.375.826 LAS	Physical Sciences and Engineering book collection, Level 2, Central Library
Supersymmetry: from concepts to searches	P. Binetruy	2006	530.1 BIN	Physical Sciences and Engineering book collection, Level 2, Central Library
