

LaTeX

Syllabus:

The course is intended for beginners in LaTeX – no previous experience is assumed. It is completely hands-on, with printed notes so that you can work at your own pace with one-to-one support from tutors.

1. when, why and where LaTeX?
2. the philosophy of LaTeX - typesetting language vs. WYSIWYG
3. your first LaTeX document
4. "math mode" - typing mathematics
5. complex documents - cross-referencing of text and maths, bibliographies, document
6. styles for theses and journal articles
7. putting pictures into documents
8. resources for LaTeX on the internet
